SRC'S STAKING REWARDS (DIVIDEND)

Leveraging sustainable agriculture
for long-term rewards

Sri Ram Coin is launching a unique investment initiative by **acquiring 100 acres of land in the state of Karnataka, India** a region renowned for producing the finest quality sandalwood in the world.

On this land, SRC plans to cultivate up to **450 sandalwood trees per acre, amounting to a total of 45,000 trees**. Over a span of 15 years, these trees will mature and be ready for harvesting.

The profits generated from this valuable sandalwood will be equally divided among SRC holders, providing substantial returns on investment. This project leverages Karnataka's reputation for high-quality sandalwood, ensuring both profitability and sustainability, while also contributing positively to the local economy and environment.

Join us in this green venture that combines financial growth with ecological preservation.

HIGHLIGHTS OF SRC SANDAL WOOD CULTIVATION

GLOBAL DEMAND

- THE GLOBAL DEMAND FOR SANDALWOOD IS INCREASING, PARTICULARLY IN INDUSTRIES LIKE PERFUMERY, COSMETICS, AND PHARMACEUTICALS.

ECONOMIC IMPACT

- THE PROJECT WILL CONTRIBUTE TO THE LOCAL ECONOMY BY PROVIDING JOBS DURING THE CULTIVATION AND HARVESTING PHASES.

SUSTAINABILITY

- SANDALWOOD CULTIVATION SUPPORTS SUSTAINABLE PRACTICES, AS IT INVOLVES LONG-TERM PLANNING AND REFORESTATION.

FINANCIAL PROJECTIONS

Land Acquisition	100 acres in Karnataka, India
Tree Density	450 sandalwood trees per acre
Total Number of Trees	$100 \text{ acres} \times 450 \text{ trees/acre} = 45,000 \text{ trees}$
Growth Period	15 years for trees to mature

SANDALWOOD YIELD AND VALUE

Average Yield: An average mature sandalwood tree can yield about 20 kg of heartwood.

Total Yield: $45,000 \text{ trees} \times 20 \text{ kg/tree} = 900,000 \text{ kg}$ of sandalwood.

MARKET PRICE

Current Market Price: The average price of sandalwood varies, but a conservative estimate is \$150 per kg

Total Revenue: $900,000 \text{ kg} \times \$150/\text{kg} = \$135,000,000$

PROFIT DISTRIBUTION

The total revenue is divided equally among SRC holders, the profit per SRC holder will be calculated based on the number of SRC tokens in circulation
